Charleston County Sheriff's Office Announces New Smartphone App

Charleston County Sheriff Carl Ritchie is excited to announce the release of a custom smartphone application. The app will serve as an innovative way for the Sheriff's Office to connect with Charleston County residents and visitors, providing information quickly and efficiently to anyone with a smartphone.

The Charleston County Sheriff's Office app was developed by TheSheriffApp.com, a brand of OCV, LLC., which specializes in mobile app development for sheriffs' offices and public safety organizations across the country. The app offers quick access to items of public interest and is easy to use.

"Over 80 percent of people in the United States own and use smartphones as their primary means of communication," OCV Partner and CRO Kevin Cummings said. "Mobile apps offer agencies a better way to alert, inform and prepare the public. Apps allow public safety agencies the ability to reach and serve their citizens where they are: their smartphones."

The Charleston County Sheriff's Office app is available to download for free in the App Store and Google Play by searching "Charleston County Sheriff, SC" or by <u>clicking</u> here.
